Professional Summery

Java Full Stack Developer (Fresher) with hands-on experience in developing web applications using Java, Spring Boot, SQL, HTML, CSS, and JavaScript. MCA graduate with strong knowledge of Object-Oriented Programming, Data Structures, RESTful APIs, and database management, seeking an entry-level software developer role.

Training Experience

Java Full Stack Trainee — Kodnest, Bengaluru

July 2025 – Present

- Currently undergoing training in **Java, Spring Boot, Hibernate, SQL, HTML, CSS, JavaScript, and React** for full stack web development.
- Building hands-on projects with **REST APIs, database integration, and frontend–backend connectivity**.
- Practicing **Git/GitHub version control, debugging techniques, and industry-standard coding practices** through guided exercises and assignments.

Education

Master of Computer Applications (MCA) — NIST University, Berhampur

2023 - 2025

CGPA: 8.15 / 10

Bachelor of Science in Physics — Berhampur University

2019 - 2023

CGPA: 7.1 / 10

Technical Skills

Programming Languages: Java, Python, JavaScript

Frontend Technologies: HTML5, CSS3, Bootstrap, React

Backend Technologies: Core Java, Spring Boot, Hibernate, RESTful APIs

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code

Core Concepts: OOP, Collections Framework, Data Structures

Projects

Weather Application

- Built a responsive application displaying real-time weather information
- Integrated third-party APIs to dynamically fetch temperature and humidity data
- It displays real-time temperature, humidity and wind speed.

Technologies Used: HTML, CSS, JavaScript, REST API

TaskMate– Task Management Web Application

- Built a task management web application using React that allows users to add, update, complete, and delete tasks.
- Implemented component-based architecture and state management using React Hooks.
- Added dynamic task filtering and status tracking to improve productivity monitoring.

Technologies Used: HTML, CSS, JavaScript, React
