Summary

Java Developer (Fresher) with strong knowledge of Core Java, OOPs, Collections, SQL, and basic web technologies. MCA graduate with hands-on project experience in building database-driven applications and a strong eagerness to learn and grow in a professional IT environment.

Education

2023-25	Masters in Computer Application (MCA) NIST University, Berhampur	8.15/10
2019-22	Bachelor of Science (Physics) Berhampur University, Odisha	7.1/10

Projects

International Course Management System Web Application (Academic Project)

- Developed a comprehensive web application using ASP.NET MVC and Bootstrap for managing international university courses. Implemented user-friendly interfaces for students, faculty, and administrators to manage profiles, courses, and real-time dashboards. Incorporated features for seamless navigation and data management, enhancing user experience and administrative efficiency.
- Technologies Used:** ASP.NET MVC, C#, HTML5, CSS3, Bootstrap, JavaScript, SQL Server.

Weather App

- Developed a responsive Weather Application using HTML, CSS, and JavaScript that allows users to search for any city worldwide and view real-time weather data. The app displays current temperature, humidity, and wind speed with a simple and user-friendly interface. It fetches live data from a weather API and updates results dynamically based on user input.
- Technologies Used:** HTML, CSS, JavaScript.

Technical Skills

Programming Languages	Java (Core Java, OOPs, Collections), Python
Web Technologies	HTML, CSS, JavaScript, React.
Backend /Frameworks	Java, Spring Boot
Database	MySQL, Mongo DB

Additional Information

Full Stack Development Summer Course, NIST University

- Completed an intensive Full Stack Development Summer Course at NIST University.
- Covered key concepts in front-end and back-end development in this summer course.
- Earned a course completion certificate in Full Stack Development.

AWS Cloud with AI Workshop by Linux World

- Attended A 6+ hours of AWS cloud with AI Workshop by Linux World.
- The Core explanation of cloud computing, CV3 Module, AWS CLI, Boto3 Library.
